Index

Note: Page numbers of article titles are in bold face type.

A

Adoption, international, infections in, 1449
Aedes aegypti, in disease transmission
  chikungunya, 1325, 1334
  dengue virus, 1378
Aedes albopictus, in disease transmission
  chikungunya, 1324–1327, 1333–1337
  dengue virus, 1378, 1383–1384
African tick bite fever (Rickettsia africae), 1346
Agriculture
  antimicrobial-resistant pathogens in. See Antimicrobial-resistant pathogens, agricultural reservoirs of.
  climate change effects on, 1476–1477
AIDS. See HIV/AIDS.
Air travel, infections associated with, 1410–1413
American College of Surgeons, medical tourism guidelines of, 1437
American Dental Association, medical tourism guidelines of, 1437
American Medical Association, medical tourism guidelines of, 1437
American Society for Plastic Surgery, medical tourism guidelines of, 1437
American trypanosomiasis, 1451
Anaplasmosis, 1352–1356
  approach to, 1352–1353
  diagnosis of, 1353–1355
  emergence of, 1355–1356
  in animals, 1352
  treatment of, 1355
Animals
  bluetongue disease in, 1482
  farm, antimicrobial-resistant pathogens in. See Antimicrobial-resistant pathogens, agricultural reservoirs of.
  pathogens transmitted from, 1424–1425
Antimicrobial-resistant pathogens, 1391–1407
  agricultural reservoirs of, 1393–1402
  environmental releases of, 1395, 1399–1402
  in animal feeds, 1394–1402
  occupational exposures to, 1395
  hospital sources of, 1392–1393
Arthritis
  in alphavirus infections, 1325
  in chikungunya, 1324–1327, 1329–1333, 1335–1336
Asia-Pacific Economic Cooperation Emerging Infections Network, 1462
Australian Council for Healthcare Standards International, 1438
Avoparcin, in animal feed, 1394

B
Biofuels, produced from food crops, 1477
Birds, in pathogen transmission, 1307–1313, 1424
Blood transfusions. See Transfusions.
Bluetongue disease, 1482
Boutonneuse fever (*Rickettsia conorii*), 1346
Brill-Zinsser disease, 1350
Brucellosis, 1454
Buka-buka. See Chikungunya virus infections.

C
Cancer, in migrant populations, 1451–1452
Caribbean Epidemiology Centre, 1462
Cervical cancer, 1452
Chagas’ disease, 1451
Chikungunya virus infections, 1323–1343
  chronic, 1333
  climate change and, 1480–1481
  clinical manifestations of, 1326–1327, 1330–1333
  complications of, 1333
  diagnosis of, 1335–1336
  historical view of, 1324–1327
  large-scale outbreaks of 2000s, 1327–1335
  morbidity due to, 1330–1333
  mortality in, 1328, 1330, 1332
  pathophysiology of, 1336
  public health consequences of, 1329–1330
  transmission of, 1333–1335, 1415–1416
  treatment of, 1327, 1336–1337
  vaccine for, 1337
Chloramphenicol, for rickettsial infections, 1355
Cities, HIV/AIDS in, 1366–1367
Climate change, 1473–1491
  diseases affected by
    bluetongue, 1482
    chikungunya, 1480–1481
    dengue virus, 1379–1380, 1480
    food-borne, 1476
    Lyme disease, 1481
    malaria, 1477, 1479
    Rift Valley fever, 1481
    rodent-borne, 1478, 1481
    vector-borne, 1478, 1482
    waterborne, 1474–1476
    West Nile virus, 1480
  malnutrition risks with, 1476–1477
Index

...trends in, 1473–1474
Community-acquired antimicrobial pathogens. See Antimicrobial-resistant pathogens.
Confined animal feeding operations, antimicrobial-resistant pathogens in. See Antimicrobial-resistant pathogens, agricultural reservoirs of.
Congenital infections
  chikungunya, 1333
  West Nile virus, 1314
Corticosteroids, for chikungunya, 1337
Cosmetic surgery, travel abroad for, 1437, 1441
Cruise ships, infections associated with, 1411–1412, 1416–1418
Cryptosporidiosis, 1475
Culex, in disease transmission, 1309

D
Deforestation, 1473, 1483–1485
Dengue viruses, 1377–1390
  historical view of, 1378–1379
  infections due to
    epidemiology of, 1377–1386
    pathogenesis of, 1378
    spectrum of, 1377
  mortality in, 1377
  serotypes of, 1377
  spread of, 1384
    climate change in, 1379–1380, 1480
    evolution in, 1380–1381
    sentinels of, 1385–1386
    societal factors in, 1381–1382
    to Australia, 1384
    to Caribbean, 1383–1384
    to Europe, 1384
    to Pacific Islands, 1384
    to South America, 1383–1384
    to United States, 1383
    travelers in, 1382–1386
    vector control disruption in, 1381
  transmission of, 1378, 1415, 1417
  versus chikungunya, 1326
Dental procedures, travel abroad for, 1436–1437
Depression, in chikungunya, 1333
Developing countries
  HIV/AIDS in, 1364–1366
  travel to, 1412–1413
  travelers seeking healthcare in. See Medical tourism.
Doxycycline, for rickettsial infections, 1355
Drugs, recreational, HIV/AIDS and, 1368–1369

E
East Africa Integrated Disease Surveillance Network, 1463
Ehrlichiosis, 1350–1356
Ehrlichiosis (continued)
approach to, 1352–1353
diagnosis of, 1353–1355
emergence of, 1355–1356
in animals, 1350–1352
treatment of, 1355
Encephalitis, West Nile virus, 1307–1311, 1314–1315
Ethanol, produced from food crops, 1477
Ethical issues, in medical tourism, 1438–1439
European Centre for Disease Prevention and Control, 1462
Eye disorders, in chikungunya, 1333

F
Farm animals, antimicrobial-resistant pathogens in. See Antimicrobial-resistant pathogens, agricultural reservoirs of.
Fever, in chikungunya, 1326
Filariasis, 1450–1451
Flinders Island spotted fever (Rickettsia honei), 1346
Food and Agriculture Organization of the United Nations, on antimicrobials in animal feed, 1401
Food animal production, antibiotic-resistant pathogens in. See Antimicrobial-resistant pathogens, agricultural reservoirs of.
Foodborne infections
climate change and, 1476
transmission in travel, 1412
Forests, destruction of, 1473, 1483–1485

G
GeoSentinel network, 1427
Global climate change. See Climate change.
Global Dental Safety Organization for Safety and Asepsis Procedures, 1437
Global Outbreak Alert and Response Network, 1463

H
Hajj pilgrimage, 1417, 1426
Hansen’s disease, 1450–1451
Hantavirus pulmonary syndrome, 1481
Hazard Analysis and Critical Control Point guidelines, applied to agriculture, 1400–1401
Healthcare, combined with travel. See Medical tourism.
Healthcare Trip, 1435
Helicobacter pylori infections, 1451–1452
Hemophilia, transfusions for, HIV transmission in, 1371
Hemorrhagic fever, dengue. See Dengue viruses.
Hepatitis A, 1418, 1449
Hepatitis B, 1451–1452
Hepatocellular carcinoma, 1451–1452
HIV/AIDS, social ecology of, 1363–1375
at-risk populations, 1369–1371
drug use, 1368–1369
epidemiology, 1364–1365, 1369–1371
future concerns, 1371–1372
migrant populations, 1450
new cases, 1369, 1371–1372
origin and, 1364–1365, 1424
sexual behaviors, 1367–1368
travel patterns, 1365–1366
urbanization, 1366–1367
vaccine for, 1371–1372
Homosexuality, HIV/AIDS in, 1367–1368
Hospitals, antimicrobial-resistant pathogens in, 1392–1393
Human ehrlichiosis, 1350–1356
Human immunodeficiency virus infection. See HIV/AIDS.
Human T-lymphotropic virus, 1364

I
Immigrants. See Migrant populations.
Incarceration, HIV/AIDS in, 1370–1371
Infertility treatments, travel abroad for, 1436
Influenza, 1418, 1420
Injection drug use, HIV/AIDS and, 1368–1369
Institutionalization, HIV/AIDS in, 1370–1371
Insurance, insufficient, medical tourism and, 1435–1436
International Health Regulations, revised, 1460–1461, 1465
International Society for Quality in Health Care, 1438
International Society of Infectious Diseases, ProMED program of, 1427, 1463
International Society of Plastic Surgery, medical tourism guidelines of, 1437
Internet, medical tourism resources on, 1435

J
Japanese spotted fever (Rickettsia japonica), 1346
Joint Commission International, on medical tourism safety, 1438

L
Land use change, disease emergence with, 1482–1485
Lassa fever, 1416
Legionella, on cruise ships, 1412, 1416
Leishmaniasis, 1450–1451
Leprosy, 1450–1451
Leptospirosis, 1481
Louse-borne typhus, 1350
Lung fluke, 1454
Lyme disease
  climate change and, 1481
  in migrant populations, 1452
Malaria
  climate change and, 1477, 1479
  deforestation and, 1484–1485
  in animal vectors, 1424–1425
  in migrant populations, 1451–1452
Malnutrition, climate change and, 1476–1477
Mass gatherings, diseases spread during, 1426
Measles, 1418, 1420–1422, 1426
Meat production, antibiotic-resistant pathogens in. See Antimicrobial-resistant pathogens, agricultural reservoirs of.
Medical tourism, 1433–1446
  accreditation of facilities in, 1437–1438
  adverse events experienced in, 1439–1441
  cosmetic surgery in, 1437, 1441
  dental care in, 1436–1437
  ethical issues in, 1438–1439
  facilities for, 1438
  Internet role in, 1435
  marketplace issues in, 1435–1436
  quality of care in, 1437–1438
  reproductive, 1436
  staff training and experience in, 1438
  statistics on, 1433–1435
  transplantation in, 1436, 1439–1440
  types of care available in, 1436–1437
Mekong Basin Disease Surveillance Network, 1463–1468
Meningitis, West Nile virus, 1307–1311, 1314–1315
Meningococcal disease, 1417, 1421, 1426
Methicillin-resistant Staphylococcus aureus, agricultural origin of, 1395, 1399
Middle East Consortium on Infectious Disease Surveillance, 1463–1468
Migrant populations, 1447–1458
  cancer patterns in, 1451–1453
  emerging infectious diseases and
    acute, 1448–1449, 1453
    chronic, 1450–1451, 1453
    clinically apparent, 1448–1449, 1453
    latent, 1450–1451, 1453
  migration patterns in, 1448
  not apparent to North American healthcare professionals, 1450–1451
  vector-borne, 1453–1454
  exposures to diseases after resettlement, 1452–1454
  statistics on, 1410
  transportation modes for, 1410–1412
Monkeypox, 1424
Mosquitoes, in disease transmission
  arthritogenic alpháviruses, 1325
  chikungunya, 1324–1327, 1333–1337
  dengue virus, 1378–1384
  malaria, 1477, 1479
West Nile virus, 1309–1313, 1315, 1454
Mumps, 1419
*Mycobacterium bovis* infections, 1454

**N**
Neonates, disease transmission to
  chikungunya, 1333
  West Nile virus, 1314
Neurocysticercosis, 1451
Neurologic disorders, in West Nile virus infections, 1314–1315
Norovirus outbreaks, 1411–1412
North Asia tick typhus (*Rickettsia sibirica*), 1346

**O**
Occupational exposure, to antimicrobial-resistant pathogens, 1395
Olympic Games, diseases spread during, 1426
Organ trafficking, 1439
Organisation de Coordination pour la lutte contre les Endémies en Afrique Centrale, 1462
Outbreaks
  chikungunya virus
    future, 1336–1337
    in 1900s, 1324–1327
    in 2000s, 1327–1335
    during travel, examples of, 1413–1424
    travel patterns and, 1413

**P**
Pacific Public Health Surveillance Network, 1463
Paralysis, in West Nile virus infections, 1314–1315
Parasitic diseases, in migrant populations, 1451
Plague, 1481
Plastic surgery, travel abroad for, 1437, 1441
Polio, 1419, 1421, 1423–1424
Polyarthritis/polyarthralgia, in chikungunya, 1324–1327, 1329–1333, 1335–1336
Precipitation
  dengue virus spread and, 1380
  extreme, 1474–1475, 1478
Pregnancy
  disease transmission in, 1314, 1333
  termination of, travel abroad for, 1436
Prison, HIV/AIDS in, 1370–1371
ProMED, 1427, 1463

**Q**
Q fever, 1452
Queensland tick typhus (*Rickettsia australis*), 1346, 1348
R
Rabies, 1424
Rainfall
  dengue virus spread and, 1380
  extreme, 1474–1475, 1478
Reproductive tourism, 1436
Rickettsia aeschlimannii, 1346
Rickettsia africae, 1346
Rickettsia akari, 1348
Rickettsia amblyommii, 1348–1350, 1356
Rickettsia australis, 1346, 1348
Rickettsia bellii, 1348
Rickettsia canadensis, 1348
Rickettsia conorii, 1346
Rickettsia felis, 1348
Rickettsia honei, 1346
Rickettsia japonica, 1346
Rickettsia massiliae, 1348
Rickettsia parkeri, 1346, 1348–1349, 1352–1353, 1355–1356
Rickettsia prowazekii, 1346, 1350
Rickettsia rickettsii infections. See Rocky Mountain spotted fever.
Rickettsia sanguineus, 1348
Rickettsia siberica, 1346
Rickettsia solvaca, 1346
Rickettsial infections, 1345–1361
  approach to, 1352–1353
  cyclic fluctuations of, 1347
  diagnosis of, 1353–1355
  diversity of, 1348–1350
  ecology of, 1347–1348
  emergence of, 1355–1356
  epidemiology of, 1345–1347
  treatment of, 1355
  typhus group, 1350
Rifampin, for rickettsial infections, 1355
Rift Valley fever, 1481
Rocky Mountain spotted fever
  approach to, 1352–1353
  cyclic fluctuations of, 1347
  diagnosis of, 1353–1354
  ecology of, 1347–1348
  emergence of, 1356
  epidemiology of, 1346
  treatment of, 1355
Rodent-borne diseases, 1478, 1481

S
St. Louis encephalitis virus, epidemiology of, 1316–1317
Severe acute respiratory syndrome (SARS), 1414–1415, 1417
Sex workers, HIV/AIDS in, 1365, 1370
Sexual behavior, disease transmission and, 1367–1370, 1414
Simian immunodeficiency virus, 1365
Skin manifestations, of chikungunya, 1326, 1330
Society for International Healthcare Accreditation, 1438
South-eastern Europe Health Surveillance Network, 1463
Southern tick-associated rash illness, 1349–1350
*Staphylococcus aureus*, methicillin-resistant, agricultural origin of, 1395, 1399
STARI (southern tick-associated rash illness), 1349–1350
Surveillance and response networks, for infectious disease, 1427, **1459–1471**
  - core capacities of, 1464–1465
  - core competencies of, 1465–1466
  - development of, 1459–1461
  - examples of, 1461–1463
  - Mekong Basin organization for, 1466–1468
  - Middle East consortium on, 1466–1468
  - revised regulations for, 1461, 1464
  - sustaining, 1468–1469
Swimming, diseases spread during, 1475

T

Tenosynovitis, mortality in, 1330–1331, 1333
Tetracyclines, for rickettsial infections, 1355
Tick(s), in disease transmission
  - anaplasmosis, 1350–1352, 1356
  - ehrlichial, 1350–1352, 1355–1356
  - rickettsial, 1345–1350, 1355–1356
Tick-borne lymphadenopathy (*Rickettsia slovaca*), 1346
Tiger mosquitoes, in disease transmission, 1324–1327, 1333–1337
Tourism
  - destinations for, 1412–1413
  - magnitude of, 1409–1410
  - medical. See Medical tourism.
  - microbe interaction during, examples of, 1413–1424
  - origins of, 1412–1413
  - transportation modes in, 1410–1412
  - volume of, 1409–1410
Trans-Eurasia Information Network 2, 1465
Transfusions, disease transmission in
  - HIV, 1364, 1371
  - West Nile virus, 1313
Transplantation
  - disease transmission in, 1313–1314
  - in foreign countries, 1436, 1439–1440
Travel, **1409–1432**
  - animal movement and, 1424–1425
  - destinations for, 1412–1413
  - magnitude of, 1409–1410
  - microbe interaction during, examples of, 1413–1424
  - origins of, 1412–1413
Travel (continued)
  population statistics and, 1409
  reasons for, 1410
  to Hajj pilgrimage, 1417, 1426
  to mass gatherings, 1426
  to Olympic Games, 1426
  transportation modes in, 1410–1412
  vector movement and, 1424–1425
  volume of, 1409–1410
Travel-associated infections
