Index

Note: Page numbers of article titles are in boldface type.

A

Accidents, motor vehicle, sleepy driving and, 531–540
Acetazolamide, for sleep-disordered breathing, 457
Actigraphy, for attention-deficit/hyperactivity disorder, 616–617
AdaptoServo ventilation, for sleep-disordered breathing
  in congestive heart failure, 455
  in opioid therapy, 442–443
Adenoidectomy, for obstructive sleep apnea, 487
ADHD. See Attention-deficit/hyperactivity disorder.
Advancement surgical procedures, for obstructive sleep apnea, 490–495
Agomelatine, for insomnia, 576
Alcohol impairment, versus sleepy driving, 534–536
Almorexant, for insomnia, 576
Alpha-synucleinopathies, REM sleep behavior disorder in, 599–600
Amitriptyline, for insomnia, 572–573
Amphetamines, for narcolepsy, 548
Anger, cataplexy in, 542
Antibiotics, insomnia due to, 569
Anticonvulsants, insomnia due to, 568
Antidepressants
  for insomnia, 570–573
  for narcolepsy, 549
  insomnia due to, 568
Antipsychotics
  for insomnia, 570, 572–573
  insomnia due to, 568
Apnea, sleep. See Sleep apnea.
Aripiprazole, insomnia due to, 568
Armodafinil, for narcolepsy, 548
Arrhythmias, in obstructive sleep apnea, 470
Atrial fibrillation
  in obesity, 466
  in obstructive sleep apnea, 470
Atrial overdrive pacing, for sleep-disordered breathing, 457
Attention-deficit/hyperactivity disorder, 615–632
  clinical features of, 616
Attention-deficit/hyperactivity (continued)
epidemiology of, 616
sleep disorders in, 616–626
daytime sleepiness, 617
drug-induced, 625
objective measures of, 616–617
periodic limb movement disorder, 618–619, 622–623
psychiatric disorders with, 619, 625
restless legs syndrome, 619, 622–624
sleep patterns in, 617
sleep-disordered breathing, 618, 620–621
treatment of, 625–626
versus ADHD subtypes, 626
subtypes of, 626
Autoantibodies, to hypocretin, in narcolepsy, 543–544
Automation of Reports and Consolidated Orders System, opioid statistics from, 435–436
Autonomic dysfunction, in REM sleep behavior disorder, 597–598
Awake state, breathing physiology in, 436–437

B
Bariatric surgery, for obesity, 496–497
Behavioral disorders
in Kleine-Levin syndrome, 557
in REM sleep behavior disorder, 593–614
Benzodiazepine(s), for insomnia, 570–572
Benzodiazepine receptor agonists, for insomnia, 570
BF2.649 histamine receptor inverse agonist, for narcolepsy, 550
Bilevel ventilation support, for sleep-disordered breathing
in congestive heart failure, 455
in opioid therapy, 442–443
Biot breathing, opioid-induced, 440
Body temperature alterations, for narcolepsy, 550
Breathing, sleep-disordered. See Sleep-disordered breathing.
Bruxism, in REM sleep behavior disorder, 600
Bupropion, insomnia due to, 568

C
Canadian Continuous Positive Airway Pressure Trial for Congestive Heart Failure
Patients with Central Sleep Apnea, 455
Captopril, for congestive heart failure, 453
Carbon dioxide, supplemental, for sleep-disordered breathing, 457
Cardiac arrhythmias, in obstructive sleep apnea, 470
Cardiac resynchronization therapy, for congestive heart failure, 458
Cardiovascular disease. See also Congestive heart failure.
obstructive sleep apnea in, 465–478
obesity and, 465–466, 471–473
pathophysiology of, 467–470
Carvedilol, for congestive heart failure, 453
Cataplexy, in narcolepsy, 541–542, 547–550
Central respiratory rhythm generators, 436

Central sleep apnea
  in congestive heart failure. See Congestive heart failure, sleep-disordered breathing in.
  in opioid therapy, 439–440

Chemoreceptors, in breathing control, 436–437

Cheyne-Stokes breathing, in congestive heart failure, 447–453, 456

Clonazepam
  for insomnia, 570
  for REM sleep behavior disorder, 604

Cognitive behavioral therapy, for insomnia, 584, 587–588

Cognitive dysfunction
  in Kleine-Levin syndrome, 557, 560
  in REM sleep behavior disorder, 597

Color vision impairment, in REM sleep behavior disorder, 595

Congestive heart failure, sleep-disordered breathing in, 447–464, 469–470
  consequences of, 452–453
  diagnosis of, 451–452
  epidemiology of, 449–450
  pathophysiology of, 449, 451
  periodic limb movements, 458
  treatment of, 453–458
  types of, 447–448

Continuous positive airway pressure, for sleep-disordered breathing
  hypertension and, 468–469
  in congestive heart failure, 453–456
  in opioid therapy, 442–443

Coronary artery disease, in obesity, 466

D

Daytime sleepiness
  in attention-deficit/hyperactivity disorder, 617
  in obstructive sleep apnea, 468–469

Decongestants, insomnia due to, 569

Dementia, Lewy body, REM sleep behavior disorder in, 599–600

Dextroamphetamine, sleep disorders due to, 625

Diphenhydramine, for insomnia, 573

Distraction osteogenesis, for obstructive sleep apnea, 491–492

Donepezil, for REM sleep behavior disorder, 605

Doxepin, for insomnia, 570, 572–573, 575

Dreams, in REM sleep behavior disorder, 594, 600–601, 605

Driving, sleepy, 531–540

Drowsiness. See Sleepiness.

Drunk driving, versus sleepy driving, 534–536

E

Economic issues, in insomnia, 582–583

Electroencephalography, for REM sleep behavior disorder, 598

Electromyography, for REM sleep behavior disorder, 598

Eplivanserin, for insomnia, 576
Estazolam, for insomnia, 570
Eszopiclone, for insomnia, 570, 572
EVT-201 gamma-hydroxybutyrate receptor agonist, for insomnia, 574

F
Fatigue, driver, 531–540
Felbamate, insomnia due to, 568
Fluoxetine, for narcolepsy, 549
Flurazepam, for insomnia, 570
Fluvoxamine, for narcolepsy, 549

G
Gaboxadol, for insomnia, 574–575
Gamma-hydroxybutyrate
  for insomnia, 575–576
  for narcolepsy, 547
Gamma-hydroxybutyrate receptor agonists, for insomnia, 574–575
Genetic factors
  in Kleine-Levin syndrome, 560
  in narcolepsy, 542–544
Genioglossus advancement, for obstructive sleep apnea, 490
Glossectomy, midline, for obstructive sleep apnea, 486

H
Hallucinations, hypnagogic, 542
Heart, transplantation of, for congestive heart failure, 458
Heart failure, congestive. See Congestive heart failure.
Hemodynamics, in obesity, 466
Herbal preparations, for insomnia, 574
Human leukocyte antigens, in narcolepsy, 542–545
Hyoid myotomy and suspension, for obstructive sleep apnea, 490–491
Hyperactivity. See Attention-deficit/hyperactivity disorder.
Hypersexuality, in Kleine-Levin syndrome, 557
Hypersomnia, periodic, in Kleine-Levin syndrome, 557–562
Hypertension, in obesity, 466, 468–469
Hypnagogic hallucinations, 542
Hypnotics, for insomnia, 567, 570–572
Hypocretin deficiency, in narcolepsy, 542–546, 549
Hypopnea, opioid-induced, 440
Hypoxemia
  in obstructive sleep apnea, 467
  in opioid therapy, 441

I
Immunoglobulin, intravenous, for narcolepsy, 549
Impact of Resynchronization Therapy on Sleep Disordered Breathing in Advanced
  Congestive Heart Failure, 458
Insomnia, 563–591
  definition of, 567
health care utilization for, 582–583
health risks of, 582
in attention-deficit/hyperactivity disorder, 617, 625–626
model of, 584–585
non-pharmacologic treatment of, 584–588
pathophysiology of, 563–566
pharmacologic treatment of, 566–577
  antidepressants, 572–573
  antipsychotics, 572–573
  benzodiazepines, 571–572
  drug-induced, 567–569
  goals of, 566–567
  hypnotics, 567, 570–572
  melatonin, 570, 574
  melatonin receptor agonists, 570, 572
  new agents for, 574–577
  nonprescription, 573
  nutritional supplements, 574
prevalence of, 563, 581
public health significance of, 582
risk factors for, 584
undertreatment of, 583–584
Insulin resistance, in obesity, 465–466
Insulin-like growth factor-binding protein 3, in narcolepsy, 543–544
Intrathoracic pressure variations, in obstructive sleep apnea, 467

J
Jaw. See Mandible; Maxilla.

K
Kleine-Levin syndrome, 557–562

L
Laser-assisted uvulopalatoplasty, for obstructive sleep apnea, 484, 486
Laughter, cataplexy in, 542
Laws, for sleepy driving penalties, 533–534
Left ventricular assist device, for congestive heart failure, 457
Legislation, for sleepy driving penalties, 533–534
Leptin, elevated, in obesity, 465–466
Levodopa
  for REM sleep behavior disorder, 604–605
  insomnia due to, 568
Lewy body dementia, REM sleep behavior disorder in, 599–600
Limb movements, periodic, congestive heart failure and, 458

M
Maggie’s Law, for sleepy driving, 533–534
Magnetic resonance imaging, for REM sleep behavior disorder, 601
Mandible, surgical procedures for
Mandible (continued)

- advancement, 492–493
- distraction osteogenesis, 491–492
- expansion, 493

Maxilla, surgical procedures for

- distraction osteogenesis, 491–492
- rapid expansion of, 494–495, 517–529

Maxillomandibular advancement, for obstructive sleep apnea, 492–493

Maxillomandibular expansion, for obstructive sleep apnea, 493

Mechanical ventilation, for sleep-disordered breathing

- in congestive heart failure, 453–456
- in opioid therapy, 442–443

Megaphagia, in Kleine-Levin syndrome, 557

Melatonin

- for attention deficit/hyperactivity disorder, 625
- for insomnia, 570, 574
- for REM sleep behavior disorder, 604

Melatonin receptor agonists, for insomnia, 570, 572

Metabolic syndrome, cardiovascular consequences of, 466

Methadone, sleep-disordered breathing due to, 439–440

Methylphenidate, sleep disorders due to, 625

Midline glossectomy, for obstructive sleep apnea, 486

Mirtazapine, for insomnia, 570, 573

Modafinil, for narcolepsy, 547–548

Monoamine oxidase inhibitors, insomnia due to, 568

Motor activity, in REM sleep behavior disorder, 594, 598, 600–601, 605

Multiple sclerosis, narcolepsy in, 546

Multiple sleep latency test

- for attention-deficit/hyperactivity disorder, 616–617
- for narcolepsy, 545–546

Multiple system atrophy, REM sleep behavior disorder in, 599

M

Naps, for narcolepsy, 546

Narcolepsy, 541–555, 600

- clinical features of, 541–542
- diagnosis of, 545–546
- pathophysiology of, 542–545
- prevalence of, 541
- REM sleep behavior disorder with, 600
- secondary, 546
- treatment of, 546–550

Narcotics, sleep-disordered breathing due to, 435–446

Nasal turbinates, radiofrequency ablation of, for obstructive sleep apnea, 486

National Center of Sleep Disorders Research, driver fatigue panel of, 536–537

National Commission on Sleep, sleepy driving activities of, 534

National Highway Traffic Safety Administration, driver fatigue panel of, 536–537

Nefazodone, for insomnia, 573

Neurologic disorders

- in REM sleep behavior disorder, 597–598
- narcolepsy in, 546
Non-rapid eye movement sleep
  breathing control in, 437
  opioid effects on, 441
Nortriptyline, for insomnia, 572–573
Nutritional supplements, for insomnia, 574

O

Obesity
  in narcolepsy, 545
  obstructive sleep apnea in, 451
    bariatric surgery for, 496–497
    cardiovascular consequences of, 465–466, 471–473
Obstructive sleep apnea
  cardiac arrhythmias in, 470
  diagnosis of, 451–452
  hypertension in, 466, 468–469
  in congestive heart failure. See Congestive heart failure, sleep-disordered breathing in.
  in obesity, bariatric surgery for, 496–497
  in opioid therapy, 440
  in pediatric patients, 481–482
  orthodontics and, 517–529
  pathophysiology of, 451–453, 467–470, 480
  surgical treatment of, 479–515
    bariatric, 496–497
    modification and advancement procedures for, 490–495
    outcomes of, 482
    pharyngeal procedures for, 482–495
    rationale for, 480–482
    single-stage multimodality approach to, 495
    soft tissue removal for, 484, 486
    staged protocol for, 495–496
    upper airway obstruction bypass procedures for, 482, 486–490
    treatment of, 453–458
Olanzapine, for insomnia, 573
Olfactory impairment, in REM sleep behavior disorder, 595
Olivopontocerebellar atrophy, REM sleep behavior disorder in, 599
Opioids
  receptors for, 437–438
  sleep-disordered breathing due to, 435–446
    clinical features of, 439–441
    normal sleep physiology and, 436–437
    opioid use statistics and, 435–436
    treatment of, 441–443
    versus normal individuals, 437–439
Orthodontics, obstructive sleep apnea and, 517–529
Oxygen therapy, nocturnal, for sleep-disordered breathing, 457

P

Pacing, for sleep-disordered breathing, 457
Palate, surgical procedures for
Palate (continued)
  pillar implants, 494
  radiofrequency ablation, 486
Paralysis, sleep, in narcolepsy, 541–542
Parkinson disease, REM sleep behavior disorder in, 599
Patient education, for narcolepsy, 546
Pediatric patients
  attention-deficit/hyperactivity disorder in, 615–632
  obstructive sleep apnea in
    orthodontics and, 517–529
    surgical treatment for, 481–482
  REM sleep behavior disorder in, 600
Pemoline, sleep disorders due to, 625
Periodic limb movements
  in attention deficit/hyperactivity disorder, 618–619, 622–623
  in congestive heart failure, 458
  in REM sleep behavior disorder, 600
Pharyngeal surgical procedures, for obstructive sleep apnea, 482–495
  soft tissue removal, 484, 486
  upper airway obstruction bypasses, 482, 486–490
Pillar palatal implants, for obstructive sleep apnea, 494
Pimavanserin, for insomnia, 576
Polysomnography
  for attention-deficit/hyperactivity disorder, 616–617
  for Kleine-Levin syndrome, 559
  for narcolepsy, 546
  for obstructive sleep apnea
    in congestive heart failure, 448, 451–452
    in orthodontic correction, 522–526
    for REM sleep behavior disorder, 601–603
Positive airway pressure, for sleep-disordered breathing, 453–456
Pre-Bötzinger complex, 436–437
Psychiatric disorders, in attention deficit/hyperactivity disorder, 619, 625

Q
Quazepam, for insomnia, 570
Quetiapine, for insomnia, 570, 573

R
Radiofrequency procedures, for obstructive sleep apnea, 486
Ramelteon, for insomnia, 570, 572
Rapid eye movement sleep
  breathing control in, 437
  opioid effects on, 441
Rapid eye movement sleep behavior disorder, 593–614
  causes of, 596
  classification of, 594–597
  clinical features of, 594–595, 597–598
  definition of, 593
  diagnosis of, 601–602
differential diagnosis of, 602–603
epidemiology of, 593–594
forensic implications of, 605
idiopathic, 595, 597–598
in pediatric patients, 600
laboratory findings in, 601
neuroimaging for, 601
pathophysiology of, 600–601
sleep disorders associated with, 600
symptomatic, 598–600
treatment of, 603–605
Rapid maxillary expansion, for obstructive sleep apnea, 494–495, 517–529
Reaction time, in impaired driving, 535–536
Relaxation therapy, for insomnia, 587
REM sleep. See Rapid eye movement sleep.
Respiratory pattern generators, 436
Restless legs syndrome, in attention deficit/hyperactivity disorder, 619, 622–624
Resynchronization therapy, for congestive heart failure, 458
“Rhythme meningitique,” 440
Rhythmic movement sleep disorder, REM sleep behavior disorder with, 600
Riley-Powell-Stanford surgical protocol, for obstructive sleep apnea, 495

S
Selective norepinephrine-serotonergic uptake inhibitors, for narcolepsy, 548
Selective serotonin reuptake inhibitors
for insomnia, 573
for narcolepsy, 549
Sexual dysfunction, in Kleine-Levin syndrome, 557
Shy-Drager syndrome, REM sleep behavior disorder in, 599
Single-photon emission computed tomography
for Kleine-Levin syndrome, 560
for REM sleep behavior disorder, 601
Skeletal modification procedures, for obstructive sleep apnea, 491–495
Sleep, physiology of
in insomnia, 563–566
opioids and, 436–437
Sleep apnea
central
in congestive heart failure. See Congestive heart failure, sleep-disordered breathing in.
in opioid therapy, 439–440
obstructive. See Obstructive sleep apnea.
Sleep disorders. See also Insomnia; Obstructive sleep apnea.
in attention-deficit/hyperactivity disorder, 615–632
in congestive heart failure, 447–464
in Kleine-Levin syndrome, 557–562
in opioid therapy, 435–446
narcolepsy, 541–555
REM sleep behavior disorder, 593–614
sleep driving, 531–540
Sleep Heart Health Study, of sleep-disordered breathing, 467
Sleep hygiene
  for insomnia, 587–588
  for narcolepsy, 546
Sleep paralysis, in narcolepsy, 541–542
Sleep-disordered breathing
  in attention-deficit/hyperactivity disorder, 618, 620–621
  in congestive heart failure, 447–464, 469–470
  in opioid therapy, 435–446
Sleepiness
  daytime. See also Narcolepsy.
    in attention-deficit/hyperactivity disorder, 617
    in obstructive sleep apnea, 468–469
  while driving, 531–540
Sleep-wake models, 566
Sleepy driving, 531–540
  accident risks in, 536–537
  causes of, 531
  historical review of, 532–534
  Maggie’s Law for, 533–534
  signs of, 531–532
  statistics on, 531, 534
  versus alcohol-impaired driving, 534–536
Sodium oxybate
  for insomnia, 575–576
  for narcolepsy, 547
Soft palate, radiofrequency ablation of, 486
Soft tissue removal procedures, for obstructive sleep apnea, 484, 486
Somnoplasty, for obstructive sleep apnea, 486
Stem cell therapy, for narcolepsy, 549
Stimulants
  for narcolepsy, 548
  insomnia due to, 569
  sleep disorders due to, 625
Stimulus control, for insomnia, 586–587
Striatonigral degeneration, REM sleep behavior disorder in, 599
Synucleinopathies, REM sleep behavior disorder in, 599–600

T
Tasimelteon, for insomnia, 576
T-cell receptor α polymorphisms, in narcolepsy, 544
Temazepam, for insomnia, 570
Temperature alterations, for narcolepsy, 550
Theophylline, for sleep-disordered breathing, 457
Thioperamide, for narcolepsy, 550
Thyrotropin agonists, for narcolepsy, 549–550
Time-in-bed restriction, for insomnia, 585–586
Tongue
  radiofrequency ablation of, for obstructive sleep apnea, 486
  resection of, for obstructive sleep apnea, 486
Tonsillectomy, for obstructive sleep apnea, 486–487
Tracheostomy, for obstructive sleep apnea, 482, 484
Transplantation, cardiac, for congestive heart failure, 458
Trazodone, for insomnia, 570, 573
Triazolam, for insomnia, 570
Tricyclic antidepressants, for narcolepsy, 549
Trimipramine, for insomnia, 572–573
Tumor necrosis factor α, in narcolepsy, 544
Turbinates, radiofrequency ablation of, for obstructive sleep apnea, 486

U
Ultrasonography, for REM sleep behavior disorder, 598
Upper airway obstruction bypasses, for obstructive sleep apnea, 482, 486–490
Uvulopalatopharyngoplasty, for obstructive sleep apnea, 487–490
Uvulopalatoplasty, for obstructive sleep apnea, 484, 486

V
Vehicular accidents, sleepy driving and, 531–540
Venlafaxine
for narcolepsy, 548
insomnia due to, 568
Ventilation, for sleep-disordered breathing
in congestive heart failure, 453–456
in opioid therapy, 442–443
Violence, in REM sleep behavior disorder, 594, 600–601, 605
Visceral fat, cardiovascular disorders related to, 472
Visuospatial dysfunction, in REM sleep behavior disorder, 597

W
Wisconsin Sleep Cohort Study, of sleep-disordered breathing, 467

Z
Zaleplon, for insomnia, 570, 572
Zolpidem, for insomnia, 570, 572
Zolpidem tartrate, sublingual, for insomnia, 575
Zopiclone
for insomnia, 572
for REM sleep behavior disorder, 604
