Index

Note: Page numbers of article titles are in **boldface** type.

A

Abscess, spinal, 783
Achilles tendinopathy, 861–862
Acromioclavicular joint arthritis, **755–775**
  - history of, 756
  - imaging for, 763–764, 897–898
  - physical examination for, 756–762
  - treatment of, 769–770
Adhesive capsulitis
  - history of, 756
  - imaging for, 763–764
  - physical examination for, 756–762
Aluminum finger splints, 885–886
American Physical Therapy Association, 870
Ankle injuries, 890–891, 909–910
Ankylosing spondylitis, 783
Anterior drawer test, for acute knee injury, 722
Apley compression test, for knee injury, 722, 857
Apophysitis, traction, of patella, 708–709
Apprehension test
  - for acute knee injury, 722
  - for patellar dislocation, 702
Aquatic exercise, 873
Arthritis, degenerative. See Osteoarthritis.

B

Back pain. See Low back pain.
Band, elbow, 883–884
Barefoot running, 863–864
Belly press test, for shoulder pain, 760
Bipartite patella, 706–707
Bisphosphonates, for osteoporosis, 824–829
Blazina stage, of patellar tendinopathy, 700
Bone loss. See Osteoporosis.
Bone mineral density, in osteoporosis, 820–823
Bone scintigraphy, 896
  - for elbow tendinopathy, 900
  - for low back pain, 906
Braces, **881–893**
  - for lower extremity, 886–891

Med Clin N Am 98 (2014) 915–926
http://dx.doi.org/10.1016/S0025-7125(14)00085-6  medical.theclinics.com
0025-7125/14/$ – see front matter © 2014 Elsevier Inc. All rights reserved.
Braces (continued)
  for upper extremity, 883–886
  prescriptions for, 882–883
  types of, 882

Bursitis
  pes anserine, 703–704
  prepatellar, 703–704

C

Calcium supplementation, for osteoporosis, 823
Cancer, spinal, 783
Carpal tunnel syndrome, 803–808, 884
Cauda equina syndrome, 783
Cervical radiculopathy, 791–799, 896–897
Chondral injury, of knee, 732–733
Chondromalacia, patellofemoral, 698–699
Chronic exertional compartment syndrome, 859–860
Cock-up wrist splint, 884
Compartment syndrome, chronic exertional, 859–860
Computed tomography, 896
  for acute knee injury, 724, 908–909
  for cervical radiculopathy, 794, 896
  for fat pad impingement syndrome, 713
  for foot pain, 910
  for hip pain, 741–742, 907
  for low back pain, 906
  for shoulder pain, 900
  for wrist conditions, 902
Controlled ankle motion brace, 890–891
Conus medullaris syndrome, 783
Counterforce brace, for elbow, 883–884
Coxa saltans (snapping hip), 747–749
Cross straight-leg raising test, for low back pain, 781
Cubital tunnel syndrome, 803–809
Cyst(s), ganglion, of wrist, 809–810

D

De Quervain tenosynovitis, 812–813
Deconditioning, physical therapy for, 877
Discography, for low back pain, 786
Disk herniation, 782
Dislocations, of patella, 701–703, 731
Dual-energy x-ray absorptiometry, 821–823
Durable medical equipment, 881–893. See also Braces.
  types of, 881–882
Durkan test, for hand numbness, 804

E

Effusions, in acute knee injury, 724–725
Elbow flexion test, 842
Elbow tendinopathy, 833–849
  - braces for, 883–884
  - history of, 839
  - imaging for, 842–843, 898, 900
  - mechanism of injury in, 834–838
  - pathophysiology of, 837, 839
  - physical examination for, 839–842
  - prevalence of, 833–834
  - risk factors for, 838
  - treatment of, 843–845
Electrodiagnostic testing, for hand numbness, 806–808
Electromyography, for hand numbness, 806–808
Ely test, for hip pain, 741
Epicondylitis, 833–849, 883–884
Equipment, for musculoskeletal conditions, 881–893
Exertional compartment syndrome, chronic, 859–860
Extensor mechanism injury, of knee, 731–732
External lag test, for shoulder pain, 759–760

F

FABER test
  - for hip pain, 740
  - for low back pain, 781
Fat pad impingement syndrome, 712–713
Female athlete triad, 857–858
Femoral neck fractures, 751
Femoroacetabular impingement, 746–747
Femur, atypical fractures of, bisphosphonate-related, 825–828
Fibula, braces for, 889–890
Finger(s)
  - braces for, 884–886
  - imaging for, 902
  - trigger, 810–811
Finklestein test, 812
Foot pain, imaging for, 910–912
Footwear, for running, 863–864
Fracture(s)
  - femoral, 825–828
  - foot, 910–911
  - fragility, 818–821
  - hip, 750–751, 818
  - in osteoporosis, 817–831
  - lower leg, 889–890
  - patellar, 710–711, 720
  - tibial plateau, 732
  - vertebral, 818
    783
Fracture boot, 890–891
Fracture Intervention Trial, 824
Fragility fractures, 818–821
Froment sign, 806–807
Functional braces, 882, 887–888

**G**

Gait analysis, in running injuries, 852–853
Ganglion cyst, of wrist, 809–810
Gastrocnemius-soleus strain, 861
Glenohumeral joint arthritis, 755–775
  - history of, 756
  - imaging for, 763–764, 897
  - physical examination for, 756–762
  - treatment of, 770–771
Golfer’s elbow, 833–849
Graston technique, 874
Grind test, for hand osteoarthritis, 813
Groin pain, 749–750

**H**

Hand conditions, 801–815
  - arthritis, 813–814
  - braces for, 884–886
  - evaluation of, 801–803
  - imaging for, 902
  - masses, 809–810
  - numbness, 803–809
  - tendinopathies, 810–813
Hawkins test, for shoulder pain, 758
Hemarthrosis, in acute knee injury, 724–725
Hernia, sports, 749–750
Herniated discs, 905
Hip fractures, 818
Hip pain, 737–754
  - diagnosis of, 741–744
  - differential diagnosis of, 744–751
  - history of, 738
  - imaging for, 905, 907–908
  - in runners, 854
  - physical examination for, 738–741
  - treatment of, 744–751
Hornblower test, for shoulder pain, 761–762

**I**

Iliotibial band syndrome, 855
Imaging, 895–914. See also specific modalities.
  - for ankle, 909–910
  - for back, 902–906
  - for elbow, 842–843, 898, 900
  - for foot, 910–912
for hand, 902
for hip, 905, 907–908
for knee, 722–724, 908–909
for neck, 896–897
for shoulder, 763–764, 897–899
for wrist, 901–902
types of, 895–896

Immobilization, of knee, 725, 888

J
Jaw, osteonecrosis of, bisphosphonate-related, 825–828
Jobe test, for shoulder pain, 758–759
Jogging injuries. See Running injuries.

Jones fracture, 911
Jumper’s knee, 700–701

K
Knee. See also Patella.
acute injury of, 719–736
  anterior cruciate ligament, 720, 722, 726–727
  chondral, 732–733
  differential diagnosis of, 724–725
  extensor mechanism, 731–732
  history of, 720
  imaging for, 722–724, 908–909
  lateral collateral ligament, 722
  ligamentous, 887–888
  mechanisms of, 720
  medial collateral ligament, 720, 723, 727–728, 887–888
  meniscal tears, 720, 722, 729–730, 856–857
  multiple ligaments, 728
  osteochondral, 732–733
  patellar dislocations, 731
  patellar instability, 722
  patellar tendon rupture, 720
  physical examination in, 720–722
  posterior cruciate ligament, 720, 722, 727
  quadriceps tendon rupture, 720
  tibial plateau fractures, 732
  treatment of, 725–733

anterior pain in, 697–717
  adolescent causes of, 707–710
  bipartite patella, 706–707
  braces for, 887–889
  fat pad impingement syndrome, 712–713
  patellar dislocations, 701–703
  patellar fracture, 710–711, 720
  patellar subluxations, 701–703
  patellar tendinopathy, 700–701
Knee (continued)
  patellofemoral osteoarthritis and osteomalacia, 698–699
  patellofemoral pain syndrome, 704–705, 855–856
  pes anserine bursitis, 703–704
  plica syndrome, 711–712
  prepatellar bursitis, 703–704
  quadriceps tendinopathy, 700–701
  braces for, 886–889
  osteoarthritis of, 908–909

L
  Labral tears, 744–746
  Lace-up braces, 891
  Lachman test, for acute knee injury, 722
  Lateral collateral ligament, acute injury of, 722
  Lateral epicondylitis, 833–849, 883–884
  Liftoff test, for shoulder pain, 760–761
  Low back pain, 777–789
    causes of, 780
    clinical presentation of, 778–779
    epidemiology of, 777–778
    history of, 778
    imaging for, 784–786, 902–906
    in running injuries, 854–855
    physical examination for, 779–784
    prognosis for, 778
    red flags in, 778, 784, 786
    risk factors for, 778
    treatment of, 786–787
  Lumbar spondylosis, 782

M
  McMurray test, 857
  Magnetic resonance imaging, 896
    for acute knee injury, 723–724, 908–909
    for ankle injuries, 909
    for bipartite patella, 706
    for cervical radiculopathy, 794, 896–897
    for elbow tendinopathy, 900
    for fat pad impingement syndrome, 713
    for foot pain, 910–911
    for hand conditions, 902
    for hip pain, 742, 744, 750, 907
    for low back pain, 785–786, 905–906
    for medial tibial stress syndrome, 861
    for osteochondritis dissecans, 710
    for patellar dislocation, 702
    for quadriceps tendinopathy, 701
    for shoulder pain, 898
for stress fractures, 859
for wrist conditions, 902
Mallet finger, 885–886
Martin positional approach, to hip pain, 738–741
Masses, in hand, 809–810
Medial collateral ligament, acute injury of, 720, 723, 727–728, 887–888
Medial epicondylitis, 833–849
Medial tibial stress syndrome, 860–861
Median nerve, compression of, hand numbness in, 803–808, 884
Medical equipment, for musculoskeletal conditions, 881–893
Metatarsals, fractures of, 910
Milking maneuver, for elbow tendinopathy, 841
MORE (Multiple Outcomes of Raloxifene Evaluation) trial, 824
Motor function tests, for hand conditions, 802
Mucous cysts, of wrist, 809–810
Multiple Outcomes of Raloxifene Evaluation (MORE) trial, 824
Muscle strain, back pain in, 782
Musculoskeletal disorders. See also specific locations, eg, Elbow; Hand; Hip; Knee.
  durable medical equipment for, 881–893
  imaging for. See Imaging; specific modalities and disorders.
  osteoporosis, 817–831
  physical therapy for, 869–880
  running injuries, 851–868

N
Neer impingement test, for shoulder pain, 758
Nerve conduction tests, for hand numbness, 806–808
Neurologic examination
  for cervical radiculopathy, 792
  for low back pain, 780–781
Neurovascular tests, for acute knee injury, 721–722
Numbness, in hand, 803–809

O
Ober test, for hip pain, 741, 748
“OK” sign, for hand conditions, 802
Orthopedic Trauma Association, patellar fracture classification of, 711
Orthoses. See also Braces.
  for runners, 863–864
Osgood-Schlatter disease, 707–708
Osteitis pubis, 749–750
Osteoarthritis
  acromioclavicular joint, 755–775, 897–898
  glenohumeral joint, 755–775, 897
  hand, 813–814
  hip, 744
  knee, 886, 908–909
  patellofemoral, 698–699
  physical therapy for, 875–876
Osteochondral injury
  of ankle, 909–910
  of knee, 732–733
Osteochondritis dissecans, 709–710
Osteomyelitis, of spine, 783
Osteonecrosis, of jaw, bisphosphonate-related, 825–828
Osteoporosis, 817–831
  care gap in, 821–823
  diagnosis of, 821
  epidemiology of, 817–818
  fragility fractures in, 818–821
  treatment of, 823–829
Ottawa rules, 723, 909–910
Overuse injuries
  in running, 851–858
  of elbow, 833–849

P

Pain. See specific locations, eg, Elbow; Hip; Knee.
Palpation, for elbow tendinopathy, 839–840
Patella
  bipartite, 706–707
  braces for, 888–889
  dislocations of, 701–703, 731
  fractures of, 710–711, 720
  imaging of, 908–909
  instability of, 722
  subluxations of, 701–703
  tendinitis of, 888–889
  tendinopathy of, 700–701
Patellar tendon, rupture of, 720
Patellofemoral chondromalacia, 698–699
Patellofemoral ligament, repair of, 731
Patellofemoral osteoarthritis, 698–699
Patellofemoral pain syndrome, 704–705, 855–856, 888–889
Patrick test, for low back pain, 781
Phalen test, for hand numbness, 804–805
Physical therapy, 869–880
  historical review of, 869–870
  history in, 871
  modalities for, 871–874
  prescription for, 877–878
  referral for, 874–877
  reimbursement for, 870–871
  visit for, 871–874
Pinch test, for hand osteoarthritis, 813
Plantar fasciitis, 863
Plica syndrome, 711–712
Pneumatic braces, 889–891
Posterior cruciate ligament, acute injury of, 720, 722, 727
Posterior drawer test, for acute knee injury, 722
Prepatellar bursitis, 703–704
PRICEMM (Protection, Rest, Ice, Compression, Elevation, Medication, Modalities) treatment, 843–844
Prophylactic braces, 882
Protection, Rest, Ice, Compression, Elevation, Medication, Modalities (PRICEMM) treatment, 843–844
Psychosocial issues, in low back pain, 781, 784
Pubalgia, 749–750
Pubic bones, stress fractures of, 751

Q
Quadriceps tendinopathy, 700–701
Quadriceps tendon rupture, 720

R
Radiography, 895–896
for acute knee injury, 722–723, 908–909
for ankle injuries, 909
for bipartite patella, 706
for cervical radiculopathy, 793, 896
for elbow tendinopathy, 842–843, 898, 900
for extensor mechanism injury, 732
for foot pain, 910–912
for hand conditions, 902
for hand osteoarthritis, 813
for hip pain, 741, 743–744, 746–747, 750, 907–908
for low back pain, 784–786, 904–906
for osteochondritis dissecans, 709–710
for patellar dislocation, 702
for shoulder pain, 763–764, 897–899
for wrist conditions, 901–902
Range of motion tests
for hand conditions, 802
for shoulder pain, 757–758
Red flags, in low back pain, 778, 784, 786
Rehabilitative braces, 882
Rheumatoid arthritis, physical therapy for, 876
Rotator cuff disorders, 755–775
history of, 756
imaging for, 763–764, 897–898
physical examination for, 756–762
treatment of, 765–769
Running injuries, 851–868
Achilles tendinopathy, 861–862
back, 854–855
chronic exertional compartment syndrome, 859–860
differential diagnosis of, 852
evaluation of, 853–854
Running (continued)

- footwear and, 862–863
- frequency of, 851–853
- gastrocnemius-soleus strain, 861
- hip, 854–855
- iliotibial band syndrome, 855
- medial tibial stress syndrome, 860–861
- meniscal, 856–857
- patellofemoral pain syndrome, 855–856
- plantar fasciitis, 862
- prevention of, 862–863
- stress fractures, 857–859
- thigh, 854–855

5

- Scapular winging, 758
- Sensory tests, for hand conditions, 803
- Shin pain, 859–861
- Shoulder abduction sign, in cervical radiculopathy, 792
- Shoulder pain, 755–775
  - history of, 756
  - imaging for, 763–764, 897–899
  - physical examination for, 756–762
  - treatment of, 765–771
- Sinding-Larsen-Johannson syndrome, 708–709
- Single-photon emission computed tomography, for low back pain, 906
- Sleeve, knee, 888–889
- Snapping hip, 747–749
- Soft-tissue mobilization, 873–874
- Spine
  - cervical radiculopathy of, 791–799
  - compression fractures of, 783, 818–821
  - stenosis of, 782
- Splints
  - finger, 885–886
  - wrist, 884
- Spondylolisthesis, 782
- Spondylosis, 782
- Sports hernia, 749–750
- Spurling test
  - for cervical radiculopathy, 792
  - for hand numbness, 804
- Stack splints, 885–886
- Straight-leg raising test, for low back pain, 781
- Strap
  - elbow, 883–884
  - knee, 888–889
- Strength tests, for shoulder pain, 758–762
- Strengthening exercises, 872–873
- Stress fractures, 857–859
fibular, 889–890
foot, 910–911
hip pain in, 750–751
tibial, 889–890

Stretching techniques, 873
Subluxations, patellar, 701–703

T

Tendinopathies
Achilles, 861–862
ear, 833–849
hand, 810–813
patellar, 700–701
physical therapy for, 876
quadriceps, 700–701

Tennis elbow, 833–849, 883–884

Thesaly test, meniscal tear, 857
Thigh pain, in runners, 854
Thomas test, for hip pain, 740
Thomsen maneuver, for elbow tendinopathy, 841
Thumb abduction test, 803

Tibia
braces for, 889–890
stress fractures of, 858–859

Tibial plateau fractures, 732

Tinel sign
in elbow tendinopathy, 841–842
in hand numbness, 804–805

Traction apophysitis, of patella, 708–709
Trendelenburg test, for hip pain, 739
Trigger finger, 810–811

U

Ulnar nerve, compression of, hand numbness in, 803–809

Ultrasonography, 896
for acute knee injury, 724, 909
for ankle injuries, 909–910
for elbow tendinopathy, 843, 900
for fat pad impingement syndrome, 713
for foot pain, 910
for hand conditions, 902
for hip pain, 742, 748–749, 907–908
for quadriceps tendinopathy, 701
for shoulder pain, 898–899
for wrist conditions, 902

Unloader braces, 886–887

V

Valgus stress test, for acute knee injury, 722
Varus stress test, for acute knee injury, 722
Vertebral fractures, 783, 818–821
Vitamin D supplementation, for osteoporosis, 823–824
Volar retinacular cysts, 810

W
Waddell signs, in low back pain, 781, 784
Wrist compression test, for numbness, 804–805
Wrist conditions, 801–815, 884, 901–902
